## BENEFITS FOR YOUR ORGANIZATION AND TEAM

### A shared language for teamwork
Everyone names the same six conditions, so problems get discussed instead of endured.

### Meetings that earn their time
Clear cadence, agendas, and roles turn recurring meetings into decisions, not updates.

### Clarity on roles and decisions
Norms and decision-making practices that prevent friction before it starts.

### Stronger cross-team collaboration
Tools that work across departments and organizations, where authority is shared.

### Templates that stay in use
Assessment, agenda, and launch checklist keep working long after the session.

### Applied within a week
Every participant leaves with a concrete plan for their own team, not just notes.
